EDUCATION

Malawi University of Science and Technology (MUST)

Bachelor of Science in Business Information Technology

(2021 – Present): Graduation (expected August 2026)

Dedza Government Secondary School

Malawi School Certificate of Education (MSCE)

Completed: January 2021

EXPERIENCE

- Designed and developed a budget tracker as a final project for the mobile app development course.
- The "Livestock Health Tracking app," which I'm working on for my final year

project, it will enable livestock farmers to efficiently track the health and well-being of their animals.

SKILLS

- **Graphic Designing:** Knowledgeable in creating modern visual content, including UI designs, using Figma.
- **Project Management:** Gained through academic coursework, with the ability to plan, organize, and manage tasks and resources to meet project goals effectively.
- **Web Design/Development:** Skilled in building responsive and modern websites using HTML, CSS, and JavaScript.
- **Human Computer Interaction:** Equipped with skills to design user-centered systems based on usability principles and user experience insights, as learned through coursework.
- **Communication:** Proficient in English, Chichewa – both written and oral communication.

PROFESSIONAL GOALS

- Utilize business IT expertise to create creative digital solutions that address pressing

issues in the real world.

- Contribute to an organization's growth through the application of modern IT strategies, efficient systems development, and effective project execution.
